

It is the perfect time for **FORMULA X2** to be in the market. With the implementation of E15 in the fuel industry, the ethanol problem is growing. Boating blogs are all commenting on the damaging impact of increased ethanol in the fuel. Formula X2 is the solution for all fuel related problems. We cannot miss this opportunity to get very aggressive and become dominate in the fuel additive industry. There is not an additive in the market that works like Formula X2 does and we can prove it.

## WHAT DOES FORMULA X2 DO?

- Removes Water
- Prevents Rust & Corrosion
- Prevents Bacteria & Algae Growth
- Prolongs Fuel Injector Life
- Cleans Fuel System
- Improves Performance
- Removes Sludge
- Decreases Maitenance

EPA Registered Brand

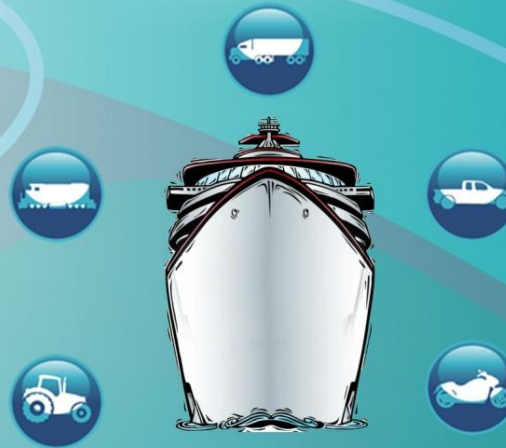

Formula X2 is compatible with all grades of gasoline, ethanol blends, diesel engines and 2 & 4 stroke engines.

## The best fuel additive for **Winterization**

### Great Fuel **Stabilizer**

*Satisfaction Guaranteed or Your Money Back*

# FORMULA X2 has been formulated to prevent water-related problems found in fuels

Formula X2 is the only fuel-additive that it is GUARANTEED to work! Removes 100% of water from gas and diesel tanks, prevents rust and corrosion inside tanks, cleans injectors and is the only product on the market that will work and protect against 100% of ethanol damage in your fuel system.

Formula X2 Corp. is the manufacturer of Formula X2 fuel additive here in the USA. We are very proud of the results that we are getting every day. Formula X2 is base in Orlando, FL. with warehouse in Orlando and South Florida. Formula X2 has been in the market for more than 30 years and now, with a new attitude and more aggressive marketing, we are introducing Formula X2 to the Marine Industry making this brand the leading product in the Fuel-Additive Industry. It really works!!!

Formula X2 is a emulsifier that breaks down the water molecules and separates the Hydrogen from the Oxygen in a cold chemical reaction. The Oxygen is release to the atmosphere and the Hydrogen fuses together with the Hydrogen in the Fuel ( All Petroleum fuel are Hydrogen base ). This reaction is why there is no more water in the fuel. Once you break the water molecule there is no more water, just the two elements. Formula X2 will clean and protect all the fuel system by chemicals that are the base for most detergents. It cleans and protects from the ethanol damages. We don't use solvents in our formula, to clean the fuel systems. This detergents in Formula X2 make possible to prevent bacterial growth and algae in Diesel fuels. Making Formula X2 in one product capable in dealing with all major problems in our Fuels today.

## Dealers and Distributors Welcome

Formula X2 is expanding to new markets, letting more people know about this incredible product. Formula X2 Corp. will give full support of our brand to new dealers and potential distributors with marketing material, banners, brochures, posters, display boxes, etc. Formula X2 will also provide to our partners with tech support.

**Motorcycles:** First time use pour 2oz of Formula X2 to clean and polish your entire fuel system. For maintenance just pour 1oz. of Formula X2 every time you fill up to keep your engine in top performance, reducing maintenance cost.

**Gas engines:** Cars and Lingt Trucks first time use Formula X2 pour 8oz before refueling. For top performance and protection against ethanol damages and sludge build up pour 2oz. every time you fill up.

**Diesel engines:** Boats and Heavy Machinery just add 8oz. of Formula X2 for every 128 gal. of Diesel to keep your fuel free of water and bacterial growth. Formula x2 is formulated to keep your tanks clean and free of algae. Fuel contamination is the number one problem in Diesel Engines. Reduce maintenance cost and downtime.

For water problems in your tanks use Formula X2 on equal amounts of water. Make sure that water don't exceed 10% of your tank capacity.
